 - The recipient can add such invoices in his GSTR 2. These added invoices would be auto-drafted in the GSTR 1A of the supplier and they can accept them and file their acceptance to the GST portal before filing their GSTR 3 of the month. These invoices will form a part of that month's return and the supplier would be able to discharge his liability without any interest. The recipient will also be entitled to credit, if eligible, on such invoices in that very month.
 - If the recipient also fails to add these invoices in his GSTR 2 of the month, the supplier can add these invoices in his next month return and pay his liability with due interest. These invoices will be auto-populated in the GSTR 2 of the recipient and he can claim credit, if eligible, in this month.
